

Individual Contributions Matrix

Submission: DESD Individual Resit

Date: 13 July 2026

I completed this matrix using the source code, test results, documentation and delivery evidence in my repository.

1. **Accuracy:** The percentages below record the work I personally completed for Gather.
2. **Evidence:** My ownership is supported by the implementation, Docker configuration, automated tests and submission documents.
3. **Total ownership:** Each technical component totals exactly 100%.
4. **Individual submission:** I am the only contributor recorded in this matrix.
5. **Assessment record:** I understand that this declaration is used when calculating my individual mark.

My Details

Member	Student ID	Full Name	Role(s)
1	22074709	Bruno Pedro	Sole developer and project owner

Technical Component Ownership

I recorded my actual contribution to each area of the independent Gather implementation.

Technical Component	Bruno Pedro (%)	Total
Requirements Analysis, Documentation and Project Management	100%	100%
Database Schema Design and Implementation	100%	100%
Django Model Classes Development	100%	100%
Views, Controllers and URL Routing	100%	100%
Template Design and Frontend Development	100%	100%
Form Handling and Data Validation	100%	100%
User Authentication System	100%	100%
User Authorisation and Ownership Permissions	100%	100%
Session and Account Management	100%	100%
Product, Basket, Order and Payment CRUD Workflows	100%	100%
Simulated Payment Service Integration	100%	100%
PostgreSQL and Redis Service Configuration	100%	100%
Security Features Implementation	100%	100%
Docker Containerisation Setup	100%	100%
Docker Multi-container Architecture	100%	100%
Bug Fixing and System Debugging	100%	100%
Query, Cache and Performance Optimisation	100%	100%
User Interface and User Experience	100%	100%
Django REST Framework API Development	100%	100%
Git Management and Submission Preparation	100%	100%

Overall Contribution Summary

I completed the technical implementation, testing, documentation, containerisation and submission preparation.

Member Name	Overall Contribution Percentage	Justification (<u>Required</u>)
Bruno Pedro	100%	I completed the full Gather project, including the architecture, business logic, interface, testing, Docker environment and submission documentation.
Total	100%	Individual submission

Individual Verification & Declaration

Review Record:

1. **Date I reviewed my contribution: 13 July 2026**
2. **Review basis: source code, automated tests, Docker build and submission evidence**
3. **Sole contributor: Yes**

Ownership conflicts: None

I completed 100% of the project and have not assigned any work to another group member.

Verification Checklist:

- ☒ I reviewed the project files and Git repository.
- ☒ I checked the implemented features and automated tests.
- ☒ I confirmed that the percentages reflect my own work.
- ☒ I accept responsibility for the accuracy of this matrix.

My Declaration:

I confirm that:

- I completed the Gather project as my individual DESD resit submission.
- The 100% contribution recorded here reflects my actual project ownership.
- I can explain and demonstrate the implementation included in my repository.
- The supporting source code, tests and documents are part of my submission evidence.
- I understand that any ownership concern must be handled through the correct academic process.

My Signature & Date:
